Hi Rob,

I am writing to express my enthusiasm for the Design Lab staff position. With a strong background in graphic design and UI/UX design, I am confident in my ability to support, guide, and inspire students on their design journeys.

Throughout my study and internship experience, I have garnered extensive proficiency in tools like Photoshop, Illustrator, InDesign, and Figma. This makes me well-equipped to address a wide range of student queries — from software-specific questions to broader design concept development. I am passionate about mentoring, helping students refine their skills, develop their unique styles, and transform their creative visions into tangible outputs.

While I come with a significant array of relevant experiences, I am also eager to learn and adapt. I welcome the opportunity for the training you provide, ensuring that I can effectively leverage all tools and printers in the Design Lab to benefit the student community.

I am excited about the prospect of joining the Design Lab team and furthering its mission of fostering a vibrant, informed, and skillful community of designers.

Thank you for considering my application. I hope to have the opportunity to contribute and learn as a part of the Design Lab team.

Warmly,
Merabella Xiang
